

TYRE REPAIR BIKES

Easy to transport anti-puncture spray based on special adhesive sealants. Compact size for bikers on the move. Repairs and inflates standard tyres instantly without the need to remove the wheel from the bike. No tools or patches needed.

Instructions of use Shake well before use. Fit the connecting hose onto the valve. Keeping the can upright, empty the contents of the can inside the tyre, until reaching a sufficient pressure. To disconnect unscrew the fitting quickly. The repair is provisional. Visit a service station as soon as possible and have the tyre checked professionally.
